ANNOUNCEMENT.

TO ALL LOVERS of good Short-Horn cattle we extend a greeting and cordial invitation to be present at our sale of Scotch and Scotch Topped Short-Horn cattle at Greenfield, Iowa, Dec. 13, 1910.

We have bulls for the breeder and for the man who wants a herd header, and the stockman who raises beef. The beginner, who wants some good young cows or heifers with which to start a herd, will find them here; and older breeders, who wish to buy some choice young things, should be with us on sale day.

We think we are selling by far the best lot of cattle that have been sold from the Evergreen Park Herds. The cattle are not fat, but in good breeding condition. The certified pedigree will be furnished with each lot sold, also a certificate of health; as these cattle will all be tested before sale.

TERMS OF SALE: Cash, or responsible parties can have time if desired.

GUARANTEE: Every animal as a single lot of breeding age is guaranteed a breeder, but cows with calf at foot or well along in calf are proven breeders and no further guarantee is given as to them. In case other females of breeding age prove not to be in calf, after six months trial, they can be returned to us and we will give another animal in equal value in place thereof. Bulls are guaranteed in the same way. If a bull fails to breed we must be notified within six months of date of sale, and we reserve the right to have the bull returned to us for further trial. Bull to be in as good condition as when sold, and if he breeds for us he will be returned to purchaser at his expense.

Stock will be loaded free of charge, but will be at purchaser's risk as soon as bid off. Sale will be held at the E. Funke farm and will open at 1 o'clock sharp. All parties from a distance will be our guests at Commercial Hotel. Parties coming by the north road will be met at Menlo. H. F. & P. H. FUNKE.

No pedigree in the English or American herd book is looked upon with greater favor than the grand old Duchess of Gloster breeding. Like the Victorias, they are descended in an unbroken line of the very best and most desirable breeding from the famous Colling Bros' oldest and highest prized strains. In the hands of Mr. Cruickshank they have produced some of the most famous sires ever produced in the herd. At the time of the dispersion of the Cruickshank herd, 21st Duchess of Gloster was considered the most famous female in the herd.

Baron Gloster—The noted bull that did such excellent service in the Forbes herd; one of the best breeding bulls ever owned in the west. During the depression in all breeds of cattle, when most breeders were glad to get \$100 for young bulls, many of his produce were selling at from \$300 to \$500. He was got by Commander 79556, out of Duchess of Gloster by Imp. Julius 56643; Imp. 22d Duchess of Gloster by Barmpton Prince 45247.

The Lavenders—Are everywhere conceded to be one of the very first of the Sittyton tribes. Their origin is the same as that of the Lancasters, from which Mr. Pickrell's great bull Imp. Baron Booth of Lancaster was bred, and many of the most valuable cattle ever brought out from Scotland have borne the Lavender name. Probably the grandest cow ever owned by Col. Harris at Linwood was Imp. Lavender 36th of this same family. One of the greatest of the champion show bulls of England in recent years is Count Lavender, the property of Mr. Deane Willis. As a class the Lavenders are distinguished for their finish, flesh and quality.

No. 1 at Mason's Sale	Cato (119)	C. Mason

Cruickshank's Victorias—Are among the best and most highly prized cattle of the present day. Sanders' History says: "The first of this Mason-bred tribe to enter the Cruickshank herd was Victoria 19th by Lord John (11731). The first produce from her were a pair of twins, Victoria 29th and 30th. The latter left no female stock. The Sittyton Victorias imported to America have proved among the most valuable Scotch-bred Short-Horns that ever crossed the Atlantic, among which was the noted Baron Victor (45944) that did such excellent service in the herd of Col. Harris."
